I cleaned up my comments in the attached. In response to your comments I did the following.

Ex. 5 Deliberative Process (DP)

Yesterday you mentioned we needed to brief up anything OW sends to CEQ before we send it to Mark. Is that right? Or are we free to pass these to Mark today before 5 pm?

Hey Molly,

Thank you for sharing. I mainly focused on where you provided comment. I am good with your comments. I assume the ones where you are pointing to me and Bruce would be removed until we think it is good to highlight. I have a few responses to you and some additional comments. Let me know if you have any questions.

Bill,

I added some comments in the attached. I don't necessarily think all should go to Mark but wanted you and Bruce to see my thoughts and I have a couple questions for you two in the comments. There are still lots of gaps and edits needed to the report, which Mark acknowledges, so I tried to stay in the UIC lane with my comments and they are pretty minimal. One exception is a question I had on pipelines. It's pretty impressive this is coming together so quickly. I see Sarah Forbes moved from DOE to CEQ!

Hey Bill – I'm starting to review this now. Before I get too far I wanted to confirm that is what I should be doing. I will look at the exec summary and skim for Class VI regardless because I am curious 😊

Subject: CEQ CCUS Report - First Draft for Review

Thanks so much for your input on the CCUS report to Congress that is due in June. We just received a first draft of the report from CEQ, which they call a working draft. It has holes and needs a lot of work; there will be a second draft coming next week. If you have comments that you would like reflected in the second draft, please send to me by COB tomorrow Thursday May 20. I'm sorry for the short turn around. If that timing doesn't work for you, we'll have another opportunity to provide comments next week (on the second draft) and I can reflect your comments in then. There will also be a formal interagency review in June.

Feel free to reach out if you have any questions.

Thanks!
Mark
